

Australian Company Number - 063 779 251
Australian Business Number - 13 063 779 251

Mt Leyshon Mine – Queensland – Spine drain - gabion, mattress and placed rock construction.. Inset: the finished project..

NVIROSCOPE PTY LTD

*For supply & installation of ~ Rock Filled Gabions & Mattresses
~ Stone Pitching ~ Erosion Control & Earth Stabilisation
Design & Certification Services available*

HEAD OFFICE “GUNGAROO” 4358 KYOGLE RD, WADEVILLE NSW 2474
PHONE: (02) 66 897 047 ~ FAX: (02) 66 897 048 ~ MOBILE 0427 736 230
EMAIL: Admin@nviroscope.com.au

Introducing NVIROSCOPE

Lismore NSW Flood Levy Wall – Stone facing over reinforced cast concrete wall.

Our company would be most interested to quote on, or assist you in your tendering for, any projects involving installation of works as outlined above but with particular reference to mattress and gabion installation and stone pitching. We can also assist with design and certification.

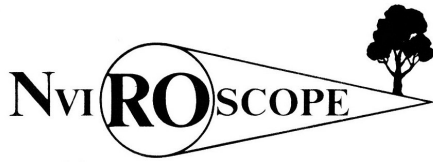

We have the resources of experienced personnel plus five excavators, ranging from 12 tonne, to 22 tonne - all with articulated buckets. We commit to fast and efficient service and are undaunted by the size of each project.

We have passed 600 completed projects varying in value between \$2,000 and \$2 m. in locations ranging from far northern Queensland, throughout New South Wales and the ACT, south into Victoria and as far west as the Pilbara.

Dorrigo Mountain - NSW

The stabilisation of this hillside below Sherrard Falls is nearing completion. The little digger was winched in three months ago and is slowly working its way up and out.

The company is headed by **Greg Herrmann** and **Rosalee Foran**.

Greg has had over twenty five years experience in this field of civil construction, working initially as a sole trader, followed by five years as Construction / Operations Manager for Terra Services where he was responsible for the supervision of approximately 350 projects throughout New South Wales, Queensland, Victoria, Tasmania and South Australia for major government bodies and contractors.

Rosalee spent twenty years in education followed by a brief period in hospitality before moving into the construction field as assistant to Greg who was then operating his own construction business. With Greg she joined Terra Services and for five years worked as Field Administrator.

Nviroscope Pty Ltd was incorporated in March 1994. Rosalee and Greg are the directors of the company.

Gabion Garden Terracing at Fig Tree Pocket, Qld

Above: Mattress cover being installed on spillway groin at the Bjelke Petersen Dam, Qld.

Right: Bridge Abutment for the NSW Roads & Traffic Authority.

Below: Gabion road retaining works for the Southern Region Water Pipeline, Qld.

Jimbelbar Wye – Mt Newman, Western Australia – gabion works associated with rail line modifications.

Here the crew is working under flood lights due to extreme heat.

More at Jimbelbar Wye where works had to allow for massive monsoon rains.

And the wet came only weeks after works were completed (above left) with all that had been installed coming through without a problem including the sections shown here.(above & left).

Above: MR92 – NSW – Bulee to Nerriga road works – part of the gabion works on a massive project requiring a large crew and many months work.

Below: A Bebo Arch constructed over the Pacific highway upgrade works at Bonville NSW.

**Spillway Remediation
Project –Armidale, NSW**

Left: The site prior to work commencing illustrating the severely degraded condition of the existing spillway.

Right: Site work gets under way with the early stages of gabion installation in the background.

Left: View up the spillway showing the construction of one side wall.

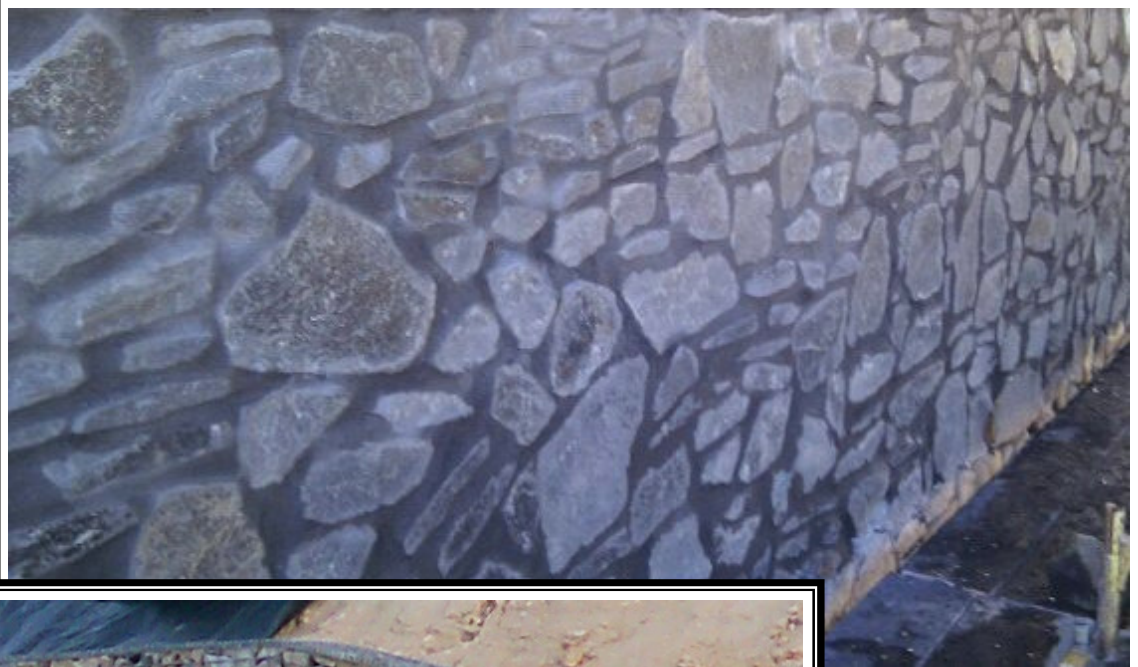

Below: The completed spillway.
